Objective

Computer Science (AI & ML) Student seeking AI Intern / Python Developer roles, with hands-on experience in Python, machine learning, RAG-based systems, and AI-driven applications, focused on building scalable, real-world solutions.

Education

B.Tech in Computer Science Engineering (AIML)	August 2023 - August 2027
St. Peter's Engineering College (JNTUH Affiliated)	-Percentage: 80.1% (Till 2-2)
Intermediate (MPC)	May 2021 - May 2023 -Percentage: 89%
Central Board of Secondary Education(CBSE):	April 2010 - April 2021 -Percentage: 84%

Technical Proficiency

> Programming Languages: Python, Java (Basics), C (Basics) > Front End / Web Development: HTML, CSS, basic JavaScript > Back End / DBMS: MySQL > Operating Systems: Windows (development environment) > Tools: Eclipse, Visual Studio, MS Office, Google workspace Android Studio, Pycharm, Eclipse, Antigravity, Ollama, LM Studio, MySQL WorkBench	COGNITIVE SKILLS > Problem Solving > Quick Learning > Analytical Thinking
--	---

Primary Skillset: Python

Python Libraries & Frameworks:

- > Pandas
- > Numpy
- > TensorFlow
- > Selenium
- > BeautifulSoup
- > Streamlit

Tools:

- > Python Standard Library
- > VS Code / PyCharm
- > Jupyter Notebook (basic usage)
- > Git, GitHub & Gitlab

Programming Languages Learning Platforms

- > **CISCO NetCad:** Python Essentials 1, Python Essentials 2, CyberSecurity
- > **Hackerrank:** Python ★★★, Java ★, C ★
- > **Oracle University:** Oracle Cloud Infrastructure
- > **LeetCode:** DSA

Github Details

- > **FitPilot - AI Fitness & Wellness Assistant :** github.com/Abhinav087/FitPilot
 - Developed an AI-powered fitness application delivering personalized workout, nutrition, and lifestyle recommendations using intelligent data analysis.
 - Implemented a scalable, modular architecture using Python, Streamlit, Ollama, and Hugging Face APIs for model integration and real-time recommendations.

Internship Experience

Viswam.ai - AI Developer

- Tools and Languages Used - Python, Hugging Face, Ollama, GIT, Streamlit
- Contributed to the development of an open-source AI chatbot, implementing core conversational flows.
- Collaborated with the Swecha community to optimize model responses and integrate user feedback loops.

Project Experience

FITPILOT – Fitness & Wellness Tracking App

- **Programming Language:** Python, Streamlit, Ollama
- Engineered the backend architecture using Python, integrating API-driven data analysis to generate personalized workout recommendations.
- Designed modular UI components to ensure scalability and cross-platform responsiveness, helping users track workouts and maintain healthy routines.

RAG-CHATBOT – Retrieval-Augmented AI Chat Application

- **Programming Language:** Python, RAG, Vector DB
- Developed a context-aware RAG pipeline, orchestrating document ingestion and vector retrieval to ground LLM responses in factual data.
- Implemented retrieval and response generation pipelines, significantly improving answer relevance and reducing hallucinations.

Participations & Certifications

➤ Certifications:

Cisco Networking Academy – Python Essentials 1 & 2
Cisco Networking Academy – Cyber Security
Oracle University – Oracle Cloud Infrastructure
Infosys Springboard – Mastering Python
EduSkills - Python Full Stack Development
Swecha / Viswam.AI – AI HackDay 2025

- Participated in a 12-hour online hackathon organized by Microsoft Hyderabad, building a real-time Subtitle Generator project among 5,000+ teams.

Extra curricular activities

Rotaract Club of St. Peter's Engineering College:

Involved in social service and community development activities such as Food Donation drives and sapling Plantations.

Membership Director(2025-2026), managing and coordinating member engagement in events and growth.
